

About-Me

I am Simran Manwani, currently a Computer Science student pursuing my BCA and currently in my third year of the course. I am deeply passionate about computer science, finding immense joy in coding, and consider myself a dedicated learner. My primary expertise lies in Python, which serves as my core technology. In addition to Python, I have explored embedded technologies such as Pandas, NumPy, and Matplotlib, acknowledging that while I am not perfect, I possess a solid foundational knowledge.

My understanding extends to fundamental Object-Oriented Programming (OOP) principles and Data Structures and Algorithms (DSA). Initially acquainted with C/C++ and Java at an intermediate level, I have also acquired knowledge in SQL. Further, I possess a basic understanding of HTML and CSS.

For my first minor project, I utilized Python, incorporating Tkinter for the graphical user interface and MySQL for the database. In my spare time, I contribute tech-related content on YouTube, reflecting my commitment to sharing knowledge with the community.

Beyond academics and technology, I cultivate various hobbies, including chess and badminton,
